

# FIRE UP

## YOUR BACKYARD ENTERTAINMENT

Who doesn't love a night under the stars, sitting around the fire and swapping stories? James Valley Landscape Solutions can help you create an amazing gathering space in your backyard, in styles that range from rustic to modern to downright luxurious. We also sell all the DIY materials you need to build your own fire pit area, with top quality products that help you look like a pro.

### Hot Products

We sell only top-of-the-line products to ensure your fire pit or outdoor fireplace lasts through every season, for years to come. If you want a smokeless fire pit or a gas fireplace that operates with a remote control, you got it. Maybe you prefer the look and smell of real wood. We can do that too. If you can imagine it, we can help you create it with products that are built to take the heat.

### Inspirational Designs

Our professional designers love designing fire pit areas and outdoor fireplaces with customized touches and unique ideas that seamlessly connect with your backyard space. Whether you live out by the lake, out in the country or have a house in town, we can create a vacation in your backyard.

### Patio Designs

Many clients want a patio designed into their fire feature, with room for half or full circle seating. We can create amazing patio spaces that echo your surroundings and play up your space's best features. We can't wait to show you some ideas!

### Let's get started

Talk to our design professionals about your backyard vision today, whether you need a little help figuring out your DIY or you'd like us to handle all the details.
